As part of Task 6.2, online dissemination and communication activities, an up-to-date and user-friendly project website was created and is operational from March 2021 (M7). It will be the main information repository of the project, containing all the latest news about the project progress and results, the roadmap and the upcoming UP-STAIRS events. Furthermore, details about the project partners electronic materials such as training materials or published papers will be included. Last but not least, the project videos together with the social media links are also published on the website.

The project website was set-up by ESV and will be managed, maintained and hosted for the duration of the project. However, all partners can contribute to the website by providing relevant project information.

The domain of the website is: <https://www.h2020-upstairs.eu/>

All the different sections available on the website can be found on the main page image shown below:

## What is Up-STAIRS?

The UP-STAIRS project accelerates the creation of energy communities. It develops flexible and iterative business model frameworks for One-Stop-Shops for local collective actions which support local stakeholders in working together. UP-STAIRS facilitates citizen participation in the energy transition and supports them in becoming prosumers. One-Stop-Shops are set-up in 5 pilot regions in Austria, Bulgaria, Germany, Ireland and Spain.

Project duration: 1 September 2020 – 31 August 2023
